Essential Medicines for Institutional Healthcare Supply

Black Med Pharmaceuticals Inc.

Company Profile

Marketing and Institutional Commercialization Partner of SwissPharmatech Co.

1. COMPANY OVERVIEW

Black Med Pharmaceuticals Inc. is a pharmaceutical marketing and institutional commercialization company committed to supporting hospitals, healthcare institutions, pharmacies, and medical professionals with reliable access to quality pharmaceutical products. As the marketing partner of SwissPharmatech Co., Black Med serves as the institutional bridge between compliant pharmaceutical supply and healthcare providers, helping bring essential medicines closer to hospitals and healthcare institutions through responsible product detailing, coordinated account support, and professional market development.

2. STRATEGIC ROLE

Working alongside SwissPharmatech Co., a Philippine FDA Licensed Drug Importer and Distributor, Black Med supports the market introduction, product presentation, institutional coordination, and healthcare professional engagement of selected ValueMED products. This partnership strengthens the availability of selected essential medicines for hospitals, pharmacies, clinics, and healthcare institutions.

3. CORE FUNCTIONS

- ✓ Hospital-use injectable medicine presentation and market development
- ✓ Expansion support for oral solid dosage forms including capsules and tablets
- ✓ Responsible product detailing for doctors, pharmacists, and institutional buyers
- ✓ Institutional account coordination and product inquiry support
- ✓ Professional market development aligned with compliant pharmaceutical supply

4. COMMITMENT

Black Med Pharmaceuticals Inc. is committed to responsible marketing, ethical product presentation, and reliable institutional account service. Through its partnership with SwissPharmatech Co., the company aims to contribute to a stronger and more dependable pharmaceutical supply network for hospitals, pharmacies, and healthcare providers.

Injectable Antibiotics

ValueMED Institutional Antibiotic Line

Selected hospital-use antibacterial products intended to support institutional healthcare supply. Product use should follow physician evaluation, approved prescribing information, hospital protocols, and antimicrobial stewardship guidelines.

VALPIPTAZ™

- Piperacillin + Tazobactam
- 4 g / 500 mg Powder for Injection (I.V.)
- Hospital-use Antibacterial

VALVANCO™

- Vancomycin
- 1 g Dry Powder for Injection (IV Infusion)
- Hospital-use Antibacterial (Glycopeptide)

Antimicrobial Stewardship Reminder

Antibiotic use should be guided by clinical assessment, culture and sensitivity when appropriate, local hospital protocols, and antimicrobial stewardship principles.

Presented by BlackMed Pharmaceuticals Inc.

VALPIPTAZ™

Piperacillin + Tazobactam

4 g / 500 mg Powder for Injection (I.V.)

Hospital-use Antibacterial

Product Overview

Generic Name:	Piperacillin + Tazobactam
Strength:	4 g / 500 mg
Dosage Form:	Powder for Injection (I.V.)
Pack Size:	1 vial + 10 mL diluent ampoule
Therapeutic Class:	Antibacterial
Route:	I.V. use
Storage:	Store at temperatures not exceeding 30°C
Shelf Life:	36 months

Indication Summary

Piperacillin + Tazobactam is used for susceptible bacterial infections requiring broad-spectrum antibacterial coverage, subject to physician evaluation, approved prescribing information, hospital protocols, and antimicrobial stewardship guidelines.

Reconstitution Reminder

Reconstitute with 5 mL of diluent per 1 g of piperacillin, then further dilute as directed. Please refer to the approved package insert for complete preparation and administration instructions.

Supply Information

Manufacturer:	CSPC Zhongnuo Pharmaceutical (Shijiazhuang) Co., Ltd.
Importer:	AMB HK Enterprises Inc.
Distributor:	SwissPharmatech Co.

For complete prescribing and product information, please refer to the approved product literature and institutional protocols.

Presented by BlackMed Pharmaceuticals Inc.

VALVANCO™

Vancomycin

1 g Dry Powder for Injection (IV Infusion)

Hospital-use Antibacterial (Glycopeptide)

Product Overview

Generic Name:	Vancomycin
Strength:	1 g
Dosage Form:	Dry Powder for Injection (IV Infusion)
Pack Size:	1 vial
Therapeutic Class:	Antibacterial (Glycopeptide)
Route:	IV infusion
Storage:	Store at temperatures not exceeding 30°C. Protect from light.
Shelf Life:	36 months

Indication Summary

Vancomycin is used for susceptible bacterial infections requiring glycopeptide antibacterial therapy, subject to physician evaluation, approved prescribing information, and institutional treatment protocols.

Preparation Reminder

Please refer to the approved package insert for complete preparation, dilution, infusion, and administration instructions.

Supply Information

Manufacturer:	SKYMAP HEALTHCARE PVT. LTD.
Importer:	AMB HK Enterprises Inc.
Distributor:	SwissPharmatech Co.

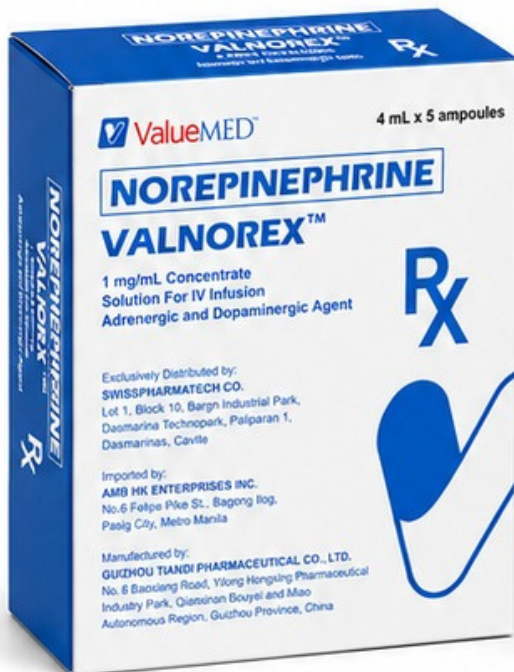

For complete prescribing and product information, please refer to the approved product literature and institutional protocols.

Presented by BlackMed Pharmaceuticals Inc.

Critical Care Injectables

ValueMED Institutional Critical Care Line

Selected institutional injectable products intended to support hospital and critical care use. Product use should follow physician evaluation, approved prescribing information, and institutional treatment protocols.

VALNOREX™

- Norepinephrine
- 1 mg/mL Concentrate Solution for IV Infusion
- Adrenergic and Dopaminergic Agent

VALCARDEX™

- Nicardipine Hydrochloride
- 1 mg/mL (10 mg/10 mL) Solution for I.V. Infusion
- Calcium Channel Blocker

Clinical Use Reminder

Critical care injectable products should be used in monitored clinical settings according to physician evaluation, approved product information, and hospital protocols.

Presented by BlackMed Pharmaceuticals Inc.

VALNOREX™

Norepinephrine

1 mg/mL Concentrate Solution for IV Infusion

Adrenergic and Dopaminergic Agent

Product Overview

Generic Name:	Norepinephrine
Strength:	1 mg/mL
Dosage Form:	Concentrate Solution for IV Infusion
Pack Size:	4 mL x 5 ampoules
Therapeutic Class:	Adrenergic and Dopaminergic Agent
Route:	IV infusion
Storage:	Store at temperatures not exceeding 30°C

Indication Summary

Norepinephrine is used in appropriate clinical settings as a vasopressor for restoration and maintenance of blood pressure in acute hypotension, subject to physician evaluation and critical care protocols.

Preparation Reminder

This is a concentrated solution. Dilute as recommended before infusion. Please refer to the approved package insert for complete preparation and administration instructions.

Supply Information

Manufacturer:	GUIZHOU TIANDI PHARMACEUTICAL CO., LTD.
Importer:	AMB HK Enterprises Inc.
Distributor:	SwissPharmatech Co.

For complete prescribing and product information, please refer to the approved product literature and institutional protocols.

Presented by BlackMed Pharmaceuticals Inc.

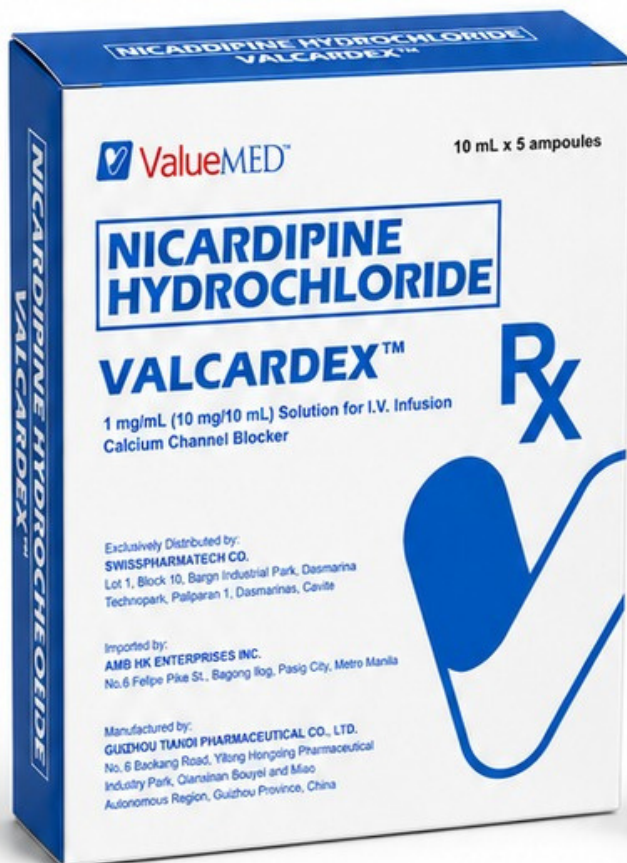

VALCARDEX™

Nicardipine Hydrochloride

1 mg/mL (10 mg/10 mL) Solution for I.V. Infusion

+

Calcium Channel Blocker

Product Overview

Generic Name:	Nicardipine Hydrochloride
Strength:	1 mg/mL (10 mg/10 mL)
Dosage Form:	Solution for I.V. Infusion
Pack Size:	10 mL x 5 ampoules
Therapeutic Class:	Calcium Channel Blocker
Route:	I.V. infusion
Storage:	Store at temperatures not exceeding 30°C. Do not refrigerate or freeze. Store in the original container to protect from light.
Shelf Life:	36 months

Indication Summary

Nicardipine Hydrochloride is used in appropriate clinical settings for blood pressure control and related physician-directed hospital management, subject to approved prescribing information and institutional protocols.

Administration Reminder

Please refer to the approved package insert for complete prescribing, preparation, infusion, and administration instructions.

Supply Information

Manufacturer:	GUIZHOU TIANDI PHARMACEUTICAL CO., LTD.
Importer:	AMB HK Enterprises Inc.
Distributor:	SwissPharmatech Co.

For complete prescribing and product information, please refer to the approved product literature and institutional protocols.

Gastrointestinal / PPI

ValueMED Proton Pump Inhibitor Line

Selected proton pump inhibitor products intended to support institutional healthcare supply. Product use should follow physician evaluation, approved prescribing information, and hospital treatment protocols.

VALOMEZ™ Injection

- Omeprazole Sodium
- 40 mg Powder for Injection (I.V.)
- Proton Pump Inhibitor

VALOMEZ™ Capsule

- Omeprazole
- 40 mg Delayed-Release Capsule
- Proton Pump Inhibitor

Therapy Reminder

Gastrointestinal therapy selection should be guided by physician evaluation, approved product information, and institutional protocols.

Presented by BlackMed Pharmaceuticals Inc.

VALOMEZ™

Omeprazole Sodium
40 mg Powder for Injection (I.V.)

+

Proton Pump Inhibitor

Product Overview

Generic Name:	Omeprazole Sodium
Strength:	40 mg
Dosage Form:	Powder for Injection (I.V.)
Pack Size:	1 vial + diluent
Therapeutic Class:	Proton Pump Inhibitor
Route:	I.V. use
Storage:	Store at temperatures not exceeding 30°C

Indication Summary

Omeprazole Sodium is used in appropriate clinical settings for conditions where reduction of gastric acid secretion is indicated, subject to physician evaluation and approved prescribing information.

Preparation Reminder

Please refer to the approved package insert for complete reconstitution, preparation, and administration instructions.

Supply Information

Manufacturer:	CSPC OUYI PHARMACEUTICAL (SHIJIAZHUANG) CO., LTD.
Importer:	AMB HK Enterprises Inc.
Distributor:	SwissPharmatech Co.

i For complete prescribing and product information, please refer to the approved product literature and institutional protocols.

Presented by BlackMed Pharmaceuticals Inc.

VALOMEZ™

Omeprazole

40 mg Delayed-Release Capsule

Proton Pump Inhibitor

Product Overview

Generic Name:	Omeprazole
Strength:	40 mg
Dosage Form:	Delayed-Release Capsule
Pack Size:	100 capsules
Therapeutic Class:	Proton Pump Inhibitor
Route:	Oral use
Storage:	Store at temperatures not exceeding 30°C.

Indication Summary

Omeprazole is used in appropriate clinical settings where reduction of gastric acid secretion is indicated, subject to physician evaluation and approved prescribing information.

Administration Reminder

Please refer to the approved product information for proper oral use, dosing, and clinical guidance.

Supply Information

Manufacturer:	JIANGXI ZHENGHANG PHARMACEUTICAL CO., LTD.
Importer:	AMB HK Enterprises Inc.
Distributor:	SwissPharmatech Co.

Responsible Use & Medical Disclaimer

Important guidance for institutional presentation and product use.

1. Healthcare Professional Use Only

These products are intended for institutional presentation and use under the supervision of licensed healthcare professionals.

2. Prescribing & Administration

Product selection, prescribing, dilution, administration, and monitoring should follow physician evaluation, approved product information, and institutional protocols.

3. Antibiotic Stewardship

Antibacterial products should be used responsibly and only when clinically appropriate, in support of antimicrobial stewardship principles.

4. Adverse Drug Reaction Reporting

Suspected adverse drug reactions should be reported through the appropriate FDA Philippines reporting channels and internal hospital procedures.

5. Availability & Documentation

Product availability may vary. Supporting product information and selected business or regulatory documents may be made available upon request.

This catalogue is intended for professional presentation purposes only and does not replace the approved prescribing information or institutional clinical judgment.
